0350.090-00098	HS 50/30 M20 × 150 FA-70	

This product range includes both A4-70 and FA-70 bolts. The strength class of these materials is the same; the difference is in the corrosion resistance. The ferritic austenitic steel used for the FA-70 is classified as corrosion resistance class IV/high, whereas the austenitic steel A4-70 is classified as corrosion resistance class III/medium.
